

A light to my path. Psalm 119:105

The Power of the Holy Spirit!

The Holy Spirit is the synergy and energy that flows through the Godhead like electrons orbiting an atom. To get a glimpse into the power of the Holy Spirit, I refer to the two hundred million eV of energy given by splitting an atom. This is equivalent to three hundred fifty-nine million nine hundred ninety-nine thousand five hundred forty degrees Fahrenheit.¹ The energy from splitting an atom is not as much as the power of the Holy Spirit. It was the power of the Holy Spirit through Elohim that created the universe and all its substances, including atoms (Genesis 1:1-31, NKJV). God used the power of the Holy Spirit to create a body for his son, Jesus, in Mary's womb (Hebrews 10:5). The power of the Holy Spirit raised Jesus' dead body to life (Romans 8:11). Nine fruits and nine gifts come from the power of the Holy Spirit (Galatians 5:22-23, 1 Corinthians 12:8-10).

Beloved, Jesus gave us examples of how to depend on the power of the Holy Spirit. Through that power, he raised to life a child dead less than an hour, a young man dead several hours, and an older man dead four days. He multiplied five loaves of bread and two fish to feed about fifteen thousand people. He turned water into excellent wine immediately. Through salvation, we have access to the power of the Holy Spirit. What do you want him to do for you today?

Shalom!!
