## **Divine Healing: A Result of Atonement or Science?**

Atonement means to remove an obstacle. Animal sacrifices recorded in the book of Leviticus were atonements to remove sin. Sickness of all kinds is an obstacle that hinders the enjoyment of the abundant life God gave us through Jesus. The law of science is fulfilled when a naturally occurring phenomena such as the healing of someone's body without medical assistance happens. When such healing is evident, it is the result of both atonement and scientific law. Atonement and scientific law require virtue and faith. Virtue is power. Faith is trusting God. disciples power to heal and told them to do it (Luke 9:1-2). He also sent out seventy men with power to heal (Luke 10:1-9).

Beloved, Jesus is our atonement and example of scientific law for healing power in us. Therefore, there is no reason to live with sickness in our body. When we have faith in God by believing he has already healed us, then we can speak against sickness and see it go. I have experienced this! You can experience healing also by putting Mark 11:22-24 into practice daily, thus placing yourself in the hands of the Great Physician.

Shalom
