

A light to my path. Psalm 119:105

On The Third Day!

On the third day of creation, God made a living environment for humanity by gathering the oceans into boundaries, allowing dry land to appear. Then he created plants, herbs, fruits, and trees (Genesis 1:9-12, MKJV). Two thousand five hundred years later, God told Moses to have the people bathe and wash their clothing to prepare for his presence when he came down upon Mount Sinai on the third day (Exodus 19:10-11). Two thousand years ago, very early on the third day Jesus rose to life again after his crucifixion, death and burial to redeem humanity from their inherited sin (Luke 24:46).

Beloved, from creation, God has always desired a relationship with humanity. He provided all we see, hear, smell, taste, and feel. He came as Jesus to redeem us from the inherited sin Adam gave through his disobedience. When we entered 2000, it had been two thousand years since Jesus arose from the grave alive. God sees a thousand years as one day. To him, one day is a thousand years (2 Peter 3:8). This year 2025 is very early on the third day. Will Jesus come again? (Matthew 24:30, Luke 21:27, 1 Thessalonians 4:16, Revelation 22:12). We, who have Jesus as our Savior, know he will return. We hope he comes soon. If you have not accepted Jesus as your Savior, now is the day of your salvation (2 Corinthians 6:2). Whoever calls on the name of the LORD is saved (Joel 2:32, Romans 10:13). I pray you will accept him today! Shalom!!
