

How Big is God?

People have finite thinking; therefore, we see things with a limited view. Every living thing on Earth has a limit. Ants live in an area that covers three hundred feet from their nest. Plants produce for a season, then rest. People claim a neighborhood, city, state, and country as their place of abode. Men have traveled to the moon and returned. We send instruments into space to explore other planets. Today, we fly for eight hours or fewer across an ocean to another country. Where we live and all we see, taste, smell, feel, hear, and do are in the center of God. The continually expanding universe in which our planet orbits is at the center of God (Colossians 1:16-17, 2:3). We recognize that there is a place called heaven and a place called hell. Both are in God (Psalm 139:7-12, Jeremiah 23:24, Matthew 10:28). God has no limits or borders. He is not in one place, and we are in another. There is nothing beyond him (Psalm 145:3). God has no beginning or ending (Psalm 90:1-4, Isaiah 40:28, John 1:1-5, 14). Therefore, we should look to God for all we need to live, heal our sicknesses, and restore our relationships. We should not struggle in this life because we live in the center of God, who loves us and cares about us (John 3:16-17, 1 Peter 5:7). See yourself living in the center of God and enjoy an abundant life through Jesus Christ, who Himself is God (John 10:10, 30). Shalom!!
